## ABOUT US

Our company, Yaşarlar Ticaret, was established in 2008, and in 2021, we began producing organic and organomineral liquid/solid fertilizers.

Thanks to the versatility of our products, they are suitable for use in all areas of agriculture and are sold within the domestic market.

All of our products are licensed and approved by the Ministry of Agriculture.

As Yaşarlar Ticaret, our goal is to enhance food safety by offering products and services that protect the ecological balance, and we continue our work with this mission in mind.

In 2021, following successful results from our R&D efforts, we developed and launched a product specifically designed for indoor and outdoor flowering plants, called FLOR365 – Year-Round Plant Food.
